

Perennial Notes

May 12, 1996

May 25 SAT Perennial Society Plant Sale for members and their friends, 9AM-12 NOON Garden of Frank Greer, 925 Waban Hill (233-4686) in Madison's Nakoma neighborhood near Cherokee Middle School. Waban Hill is one block east of Midvale Blvd, #925 is between Yuma and Cherokee Drives (both intersect Midvale Blvd). Or from Nakoma Road, Yuma drive is the NW extension of Seminole Hwy towards Midvale Blvd. Waban Hill is the third left on Yuma Drive coming from Nakoma Rd. Sale will feature mostly plants from members' gardens at bargain prices.

Our Saturday digs were a huge success!! Members dug and potted over 1000 Madison grown plants. Many thanks to Tom Cottington, Steve and Linda Harsy, George Farah, Stephani and Rich Bloomquist. Joan Severa, Heidi Carvin, Ruth Cadoret, Molly Mcdermott, Louis Eberhart, & Frank Greer Please bring any additional plants from your garden that you would like to donate to the sale. Digging large clumps on the morning of the sale and bringing them in plastic bags or boxes is OK. Please do not show up without something to sell--we can sell anything!! Plants can also be dropped off at Frank's anytime on Friday.

We have had an overwhelming response with volunteers for help on Saturday morning. I guess people want to get there early for a chance of finding the blue epimedium. A few more volunteers are still needed for Friday afternoon and early Friday evening. If you can help, please give Tom Cottington a call at 836-7033.

May 18 SAT Garden Tour with the Rock Garden Society. This tour will commence at 10 AM in Jack Ferreri's greatly expanded rock garden in Verona. His wife Judy has her own Perennial garden which rivals Jack's. Bring a lunch to eat along the way. From Jack and Judy's (PS members), we will proceed a short distance to the fabled garden of Olive Thomson which has a renown collection of primroses. The next stop will be the rock, prairie, and herb gardens of Harriet Mathews in the village of Mt. Horeb. Our final stop will be at Ed Glover's (President of the Rock Garden Society) garden also in Mt. Horeb.

Direction to Jack & Judy Ferreri's: Take the West Beltline to Mineral Point Road. Proceed West a short distance to Highway M--turn left (South). Proceed two miles to Midtown Road (Red brick school house on your left). Turn right on Midtown Road--proceed three miles to the dead end at County T (Timber Lane). Turn left (south). The Ferreri's driveway is the fifth one on the left--#3118 at the flowered mailbox.

If you can't join us for the whole tour, feel free to come to Jack and Judy's anyway.
