

#11 - A rosy pink, mid-season, prolific bloomer. The large double flowers are sweetly scented. Plant height about 36" and medium size blooms

#22 - A Japanese type peony with a dark pink/red center set inside a wide fan of neon pink petals. A very unusual color and a real stand-out in the garden. It's a vigorous, upright grower with strong stems. No staking needed. Plant height 36" and medium size blooms

#DD - Soft shell pink buds and outer petals open to show creamy white inner petals with random bright fuchsia pink streaks. Sweetly scented. Plant height about 30" and medium size blooms.

#PP - Soft pink outer petals frame pure white fully-double inner petals which fade to a soft yellow toward the base. Medium plant height and medium size blooms.
